

Parent Reviews Of Our School

From savvysource.com

Words cannot even begin to describe how wonderful and exceptional Kid Magic Preschool is! I brought my son to KidMagic half-way through his second year of preschool after pulling him from a preschool where he was being bullied. Within months after starting Kid Magic, I began to see my son blossom again. Now a year later, my son is confident, eager to learn, happy and **READING!** Preschool begins the foundation of your child's learning career and this school provides the utmost solid foundation!

The teachers are great at teaching cause & effect for one's actions. They hold each child responsible for his/her actions. The teachers also structure learning materials/methods differently so that each child gets individual attention.

We came to Kid Magic on a recommendation and it was the best advise we have ever taken. The teachers are incredible and the park setting is amazing. We have many teachers in our family and they have been very impressed with the academics of Kid Magic. As much as we appreciate the learning environment, we really love the nurturing and encouraging from all the teachers. Our daughter will have great memories of Kid Magic for the rest of her life!

My son loves his preschool! The teachers provide a very safe and nurturing environment. The program offers a great reading program. Most, if not all, of the children are reading before entering Kindergarten. The school is located on beautiful Robinswood Park where the children can enjoy nature walks and the playground. They even got to see a family of baby ducklings this spring!

Kelly B

My daughter loves it. It is located in a beautiful park where they go outside most days (weather permitting). The program is also a good mix of academics and play. My daughter was reading basic stuff at four.

Kid Magic is great! My daughter comes home talking about things she learned that day. Who would have known I'd be listening to my five year old say "nocturnal" or "chlorophyll" & describe what it means?! KHE started reading four months into her first year at Kid Magic. The school building is a barn-like structure set in beautiful Robinswood Park. Great experience with everyone there!

Erica G
I was looking for a preschool for my daughter and I was not interested in a faith based or Montessori school. I found Kid Magic online, met with Gail and found that Kid Magic is a wonderful mix of choice and structured time. The number one reason that I chose Kid Magic was the percentage of KM graduates actually reading. My daughter has really flourished and gained a confidence and independence that I hadn't expected.

Today is the last day for my son at KidMagic Preschool. It is hard to believe that It has been two years. How time flies. Our son was 3 at the time and didn't speak much English if at all. Since this would his first time going to any type of school or daycare, we were very selective and concerned as any parents would be. We would like to find a school which provides love, care, and patient for their students. We also would like the school to provide an environment for the kids to grow socially, emotionally, and academically, and in that order. After many phone calls and visits, we selected KidMagic. We were enchanted at first by the school surroundings and the environment. Then we met the School Director, Ms. Gail. We got a great first impression. She is loving and caring, a disciplinary and a true educator. It turned out our intuitions were spot-on. As a matter of fact, all the teachers there are great. They pay much attention to each kid's behavior, needs, growth, and the dynamics among these kids. In the past two years, we have seen our son's progression and development socially, emotionally, and academically. As of today, he speaks perfect English, loves to socialize and make friends, and enjoy reading. He is funny and fun, full of curiosity about nature and science. He always wanted to be the first at school. In my son's own word: 'I LOVE MY SCHOOL', 'I LOVE Ms. Gail', 'I LOVE Ms. Vicky', 'I LOVE Ms. Bridget'. Our son is well prepared for the Kindergarten. Even though he will miss his friends and teachers there, but he is ready and excited to attend Kindergarten in the fall.

Our daughter will be attending KidMagic in the fall. She is excited and can't wait to go to school with her brand new princess backpack.

This being my son's first experience with school, my main objective was that he love it. We are now finishing 3 years here and he has come so far. The teachers let the children learn at their

own pace all the while pushing them just enough so that they are constantly growing. My son will not only leave Kid Magic as a reader, but most importantly, he will be starting Kindergarden loving school.

My daughter has been at Kidmagic Preschool for a year and a half and we could not be happier. She looks forward to going to school everyday and coming home excited to tell us about her day. The school's park setting with the playground, duck pond and nature trails make it a great environment for outdoor playtime. Not only is the staff friendly and enthusiastic, they have a great attentiveness to the individual development of each child. Kidmagic has prepared our daughter socially and academically for kindergarten. Our daughter has learned to write her ABCs with the correct strokes and has built a strong passion for reading as a result of the early reading program that is offered.
